## Professional profile

Experienced in computer science and adept at collaborating in team environments to deliver efficient, high-quality technical solutions, Technical degree in Software Development with strong skills in programming .NET project development using the MVC model, and web design with Java, JS, HTML and CSS.

## Experience

### • .NET Project Development with MVC Model

#### February 2025 - Current

- Design and develop an administrative system for a gym
- Used JavaScript, HTML, CSS, and C# for development and debugging.
- Developed a dynamic website for a gym using the MVC design pattern
- Implemented SQL as the database for the project

### • Warframe webpages

#### November 2024 - December 2024

- Developed a dynamic website for tracking item statistics in a game.
- Used JavaScript, HTML, CSS, and C# for development and debugging.
- Implemented BigQuery as the project's database.

### • PDF Reader with AI Summary

#### May 2024 - April 2024

- Developing a dynamic website that summarizes PDFs and PPTX using AI.
- Using TypeScript, Angular, HTML, SCSS, and Java SpringBoot for development and debugging.
- Implemented MariaDB as the project's database.

## Education

### Bachelor's in software development (In progress)

- 2 years completed
- Software Development courses, SOFTEC passed

## Skills

Languages: Spanish, English B2+

#### Technical Skills:

- **Programming Languages:** Proficient in Java, JavaScript, C#, and C++.
- **Database:** Medium knowledge of procedures and transactions in SQL databases.
- **.NET Project Development:** Experience in developing .NET applications using the MVC design pattern.
- **Frontend and Backend Development:** Integration of functionalities on both the client side and the server side.
- **Development management:** Proficient in development control tools such as Github.
- **Debugging and Testing:** Skills in identifying and resolving errors in software applications.
- **Cloud & DevOps:** Knowledge of **Microsoft Azure** services, including Azure SQL Database and VM setup.

**Soft Skills:**

- **Collaborative teamwork** – effectively works with cross-functional teams to achieve project goals.
- **Problem-solving** – approaches challenges analytically and develops creative, efficient solutions.
- **Communication** – clearly conveys technical concepts to both technical and non-technical audiences.
- **Adaptability** – quickly learns new tools, technologies, and methodologies in a fast-paced environment.
- **Attention to detail** – ensures accuracy and quality in coding, documentation, and project delivery.
